	10,960
(11) Account IV - Other Expenditure Heads - Petty Minor Works.	1,900
Total.	67,590

Items Nos. 2 and 3 i.e., appointment of two temporary clerks in Sub-Registrar's Office and the appointment of Officer-in-Charge of the Resident's Treasury etc., have been sanctioned by the Government of India.

Items 6 & 8

As regards these items Building Grants to Goodwill Girls' High School and Sacred Heart Boys and Girls' Schools the Government of India consider that as these schemes do not appear to be of an obligatory and unavoidable character they would prefer that they should be postponed until financial conditions improve.

Item 9.

We have already written to the Government of India to make necessary provision (viz Rs.5,960/-) in the M.A.T. budget for 1932-33 on account of grant-in-aid to the Home for the Aged for improvement of drains - vide paragraph 6 of S.N.26/429-31.

Item 4.

The Government of India sanctioned the appointment of Additional Judge for the Resident's Court upto the end of current financial year. They have not stated yet whether necessary provision will be made in the next year's M.A.T. budget. The Government of India may be asked to include this amount.

As regards remaining items i.e., 1,5,7,10 & 11 orders of the Government of India have not yet been received.

Draft D.O. letter to Sir Charles Watson is submitted for consideration. No special representation appears to be necessary as regards provision made for minor works. They are not therefore included in the

draft

draft letter to the Government of India.

Secretary.

Resident's draft with certain additions is put up.
Reference to Mysore scoring by our savings has been omitted as the, do not score. It is the A.T. surpluses that score because these part II B charges are coming out of our share of the surplus after Mysore have been given their three quarters.
Before the draft issues perhaps we might let F.A. cast an eye over it.
One other point occurs to me. I wonder if the building grants to the Goodwill, Kamala Bai and Sacred Heart Schools(totalling just over half a lakh) are really justified. Our position is sound but it would be weakened if we had to produce a non-large/recurring and subsequent recurring grants for the water supply. I do not think that we can say with certainty that we shall not have to do this.

Confidential

It is true we have told the Commission to expect no help from us but G. of I. have said that if the need arises the money will have to come from the A.T. The matter is of chief concern to Cooke and Edmonds and they might be consulted after F.A. has noted.

A wrong assumption as item 9 has since been dismissed. Gn 2/3

I take it that the Resident wishes to protest against the suggestion in G of I letter No. D- 45- R/32, dated the 27th Jan. 32, that our financial conditions need improvement before schemes which are not of an obligatory and unavoidable character are launched. The G of I however refer only to two specific cases whereas our proposed draft covers all or almost all the items included in Part II-B of our budget for 32-33. I think that we may fairly assume that the G of I have accepted all our proposals except the two about which they comment in the letter under disposal.

If we turn to Part II-B, we find that item 6 relates to the grant to Goodwill Girls' High School, item 7 to Kamala Bai's school, and item 8 to Sacred Heart Boys' and Girls' schools. The G of I have picked out items 6 and 8 alone for criticism, and not item 7. I don't think that the G of I would have postponed criticism to another refernce if they did want to criticise it. Moreover, it is not exactly on a footing with the other two items. G of I have already allowed us to build the new High School, the money required coming partly from private sources and partly from Govt. funds. If the school has actually cost more than the estimated amount, Govt. have a certain responsibility to share, and, presumably, they think that 16:11 out of a total of 27 thousands is not a bad bargain. But such considerations do not apply to the other two cases for which we want a total of Rs. 36,230. They seem therefore to advise us that they "would prefer that they should be postponed until financial conditions improve." They do not insist on their postponement. We should be able to tell them either that they are obligatory and unavoidable, or that, though they are neither obligatory nor unavoidable, our financial conditions are so good that we need not wait until they improve still further. We have already given our reasons in Part II-B for asking for provision for the items, and we have also given a statement of our available surplus. G of I have presumably considered those reasons and figures before advising us as they have done. Secretary himself doubts

whether these items (as also Kamala Bai's) are really justified, in view of the possible expenditure we may have to meet from the surplus on water works. The Gof I, it may be, have in mind the water works case also.

It seems to me therefore best not to anticipate objections in the case of items included in Part II-B to which specific refernce has not been made by the G of I. In any case, G of I won't cut out any items without previously communicating with us. I would therefore suggest that we confine our immediate action to the two cases which the Gof I say might be postponed to future years, if the Resident wants to recommend their sanction in 1932-33 budget.

The proposed draft also refers to the general question of of budgetting from M. A. T. revenues. We may perhaps wait for the communication promised in para 3 of Gof I memo No.F-403-A/ 31, dated 1.2.1932.

15th February 1932

To

The Inspector of Schools, Coorg and Bangalore, U.O.

No. 458/1-24
16-2-1932.

26 The Goodwill Girls School scheme I consider absolutely essential. The three main items of the scheme are(1) extra class rooms,(2) dormitory for resident teachers, (3)a new science room.

Until recently, two classes were held in the Principal's bungalow as there was not enough accomadation in the school. One side of the bungalow has now had to be pulled down as it was unsafe. Classes have now to be combined. If the classes were congested when this application was first put up, they are worse off than ever now. One class that I saw this morning contained 48 girls. Several of the class rooms which ought not to hold more than 30 girls held nearly 40. Classes of this size are far too great a strain on young Indian women teachers, quite apart from the question of fresh air.

27 The Health Officer commented on the sleeping accomodation for the teachers. The only dormitory is big enough for four teachers, and there are 11 resident teachers to be accomodated! It is impossible for all to sleep in this one room, so some of them sleepon the verandahs and in the class rooms. This I consider to be a deplorable state of affairs. It is not only a question of sleeping accomodation. The teachers day room can't hold anything like 11 people; so that these teachers can enjoy no privacy, day or night. The teachers in a school of this type expect and deserve something a good deal better than this.

28 The Science room can hold 10 girls ,but the subject is now compulsory for all now, and the classes cant possibly get into this room. It was adequate formerly because only a few girls who wished to specialise, took the subject.

29 The Sacred Heart school grant is to help build new accomodation for the Boys' and Girls Schools at present housed under very bad conditions in the Church Compound

The boys' need is the more desperate.There are 98 boys on roughly 370 square feet of space. This is less than half the minimum area per boy prescribed by the Madras Educational Rules!No case could be more urgent than this.The girls are nearly as badly crowded and they must be terribly hot in the hot weather. But their building is a better shape and the girls seem to fit in more comfortably.This part of the scheme might possibly be postponed(although it would be more economical in the end to build the two parts of the building together). We might ask the Mission to pay Half the cost (I proposed a third). This would reduce the cost to Govt. to Rs. 5000

30 With this modifiaation I would still strongly press these two schemes for sanction.

16.2.32

31 In the circumstances explained by the Inspector of Schools, Coorg and Bangalore, it is for orders whether the Government of India may be addressed in the matter of ----- payment of building grants to the above two schools in 1932-33 or whether the works may be postponed for future years as suggested by the Government of India in S.N. 29. It appears that grants to Water Supply Scheme appear to be unavoidable character and we must reserve funds for that purpose.

H.Q. No 1285
18th February 1932

I am not quite clear as to the points on which my opinion is desired. I fear I am not in a position to criticize Mr Edmonds' proposals. I do not know the details of the working of the Land Mortgage Banks.

As regards the Kannada Boys School I would most strongly urge the retention of the grant proposed. I feel that we are under a moral obligation to pay the sum to the Treasury as a loan.

I do not think we need fear the future financially. Income tax cannot yield higher revenues in the future, and I anticipate better returns from the excise revenue next year: these are our two chief sources of income.

As regards the water scheme: as the Commission will have two problems to solve: (1) capital expenditure, & (2) increased annual charge. As regards (1) this should be financed from loans, & not necessarily from grants. As to (2), if we get help at all, it will have to be in the nature of an annual recurring grant, and I have little hope of such a recurring help but little toward such a recurring charge.

Will F.A. kindly look at this draft and come and discuss it some time next week. I am not at all sure that I have taken up an impregnable position and there is no use hammering awa, at G. of I. unless our facts are beyond criticism. For instance would the Durbar be entitled to claim that any interest on our surpluses(which are made up after the Durbar have been given their share) should go into the common pool for the mutual benefit of both the tract and themselves.?

(47)

First para.

Perhaps we may qualify " a new and important question" by the words , "affecting the administration of the Tract". G of I are quite wrong in cutting down our budget merely to give themselves relief.

Pages 3 and 4 of the draft.

G of I's contention seems to be that Mysore is not entitled to interest, even if payable, on the Assigned Tract's share of the surpluses; that, until the surplus is actually worked out at the end of the year, it would be impossible to say what would be the share of Mysore, as the G of I have entire discretion to spend the revenues on the Assigned Tract Administration ; and that when the account is is made up, Mysore's share is immediately paid away.

In this argument, G of I are identifying themselves with the Assigned Tract Administration. There is clearly no hint that the A T Administration would be deprived of its own resources to suit the interests of the G of I.

But, by their present admission, they are not letting our money lie in the "till" to be used for the needs of the Station.

(48)

Page 6 of the draft.

We may use the phrase " the revenues of the Assigned Tract" instead of " accumalated surpluses". The former includes the latter and it would read well with the quotation in the previous paragraphs of the general principle laid down by the Secretary of State and reiterated by the G of I that the needs of the Tract are to be the first consideration and that the Imperial exchequer should not benefit at the expense of the Tract.

We need not, I think, make any mention of Mysore at this place, as the interests of Mysore and those of the Tract are bound up together and any revenue that the Tract derives will go to increase the divisible surplus.

We might therefore say; " Thus, although the revenues

of the Assigned Tract are primarily intended for the benefi benefit of the Tract, its interests are being subordinated to the interests of the G of I"

(4)

So far as we are concerned, G f I have no right to relieve themselves, even temporarily. The qualifying word " temporary " may be omitted.

We may also make it clear that if we agree to forego interest, G of I should not touch our money, that is, should cut any of our reasonable demands.

I think we need not help the G of I to find an excuse for not paying interest to the Tract. The argument of identifiability that they use may or may not be sound. The fact remains that they are using our money for their own purposes. That would entitle us to interest. But as the G of I say they are only using the Tract money temporarily, we won't press for it.

As the Govt of Mysore suggest in one of their letters , G of I might have allowed us to invest our surpluses. We could have deposited them and earned interest, reserving enough for current requirements. These surpluses are really intended for use on productive and other schemes which could not be financed from current revenues. If the productive schemes yielded revenue, it would be part of the Tract revenue, under condition 4 of the Settlement, and Mysore would automatically get a share. In the alternative, if interest were earned, they would, similarly , get a share also.

We are therefore right in saying that the Mysore Govt would protest if they knew that the G of I were using the Tract revenues for their ways and means operations, and we are perfectly justified in asking that our demands should not be denied.

(X) We may alter this sentence of the draft as:" I am therefore of opinion that the only possible view to take is that , although for one reason or other, interest may not be paid on the surpluses of the Assigned Tract , any reasonable demand for their use for the benefit of the Assigned

Tract cannot possibly be denied. "

Page 8.

The inference in the last sentence is correct, but we want to take the position that our budgets should not be altered to suit the convenience of the G of I. We may perhaps leave the matter at that and not raise the issue, at present, whether the State has a claim to interest.

The first portion of the draft on this page is not quite clear.

Clean draft please.

A clear draft is submitted.

Previous notes need not be read(except 46-49)
After composing this draft I sent it to F.A. for criticism. These are contained in paras 46-49 of notes. They accept my draft as correct in substance and suggest certain minor modifications(placed in the original draft/below) which have been/ embodied in the present draft.
I then went through the draft with the F.A. and now submit it for consideration.
The only point is whether we should send this rather startling letter(startling from their point of view) now or wait, as Resident suggested, until they have recovered from their budget session and settled down quietly in Simla.

21-4

On the Rendition of Mysore, the Cantonment of Bangalore, together with certain neighbouring villages, was assigned to the British Government for administrative purposes. This Tract is known in official correspondence as the "Mysore Assigned Tract" or the "Civil and Military Station of Bangalore". The budget of the Tract is therefore called "Mysore Assigned Tract budget" or "Bangalore (Civil and Military Station) budget". In the printed sanctioned budget the Government of India give the heading as follows:-

"Bangalore"

"Estimate of the amount required in the year ending 31st March, 1933 to defray expenses in connection with the Bangalore Assigned Tract."

We have used the words "Bangalore Budget" before also-Vide S.N. 46/443-C3. Submitted for orders as to whether the draft already submitted may now issue?

Telegram No.775 Ma., dated the 6th June, 1932, from the Secretary, Hyderabad Residency.

This telegram appears to have been delivered to Mysore Government and they have sent it to this office.

Please see page 18 of the Bangalore Assigned Tract budget for 1932-33 in which the estimated receipts for 1932-33 under "II - Taxes on Income" are given as Rs.2,64,000/-. In addition to the above, we expect Rs.15,835 or Rs.16,000/- in round figures annually from outside Bangalore as Income-tax and Super-tax receipts from Insurance Companies etc. This is adjusted in the annual pro-forma account.

Draft telegram together with a draft letter to the Secretary to the Hon'ble the Resident at Hyderabad is submitted for approval.

New Delhi, the 27th January 1932.

Subject:- Building Grants to Goodwill Girls' High School and Sacred Heart Boys' and Girls' Schools, Bangalore.

Sir,

I am directed to refer to the new items of expenditure proposed for inclusion in the Budget Estimates of the Civil and Military Station of Bangalore for 1932-33, relating to building grants to the Goodwill Girls' High School and Sacred Heart Boys' and Girls' Schools.

2. The Government of India have given the matter their careful consideration and are of opinion that the same criterion as regards the control of expenditure must be applied in these cases as in others. As these schemes do not appear to be of an obligatory and unavoidable character the Government of India would prefer that they should be postponed until financial conditions improve.

I have the honour to be,

Sir,

Your most obedient servant,

M. Smith

Grant-in-aid to the Home for the Aged in Bangalore.

Reference paragraph 6 of your letter No. 63/429-1931 dated the 6th January 1932.

2. It is true as stated by you, the expenditure will be incurred out of the surpluses of the Assigned Tract Revenues, but having regard to the "Ways and Means" position of the Government of India, any economy in the Assigned Tract Revenues will give temporary relief to the Government of India. Moreover, in view of the calls which may have to be met in connection with the new water supply scheme, there is need for economy in the Assigned Tract budget. The Government of India regret that they have been compelled to delete the provision for the grant-in-aid to the Home for the Aged in Bangalore in the budget for 1932-33.

Mysore Assigned Tract Budget for 1932-33.

My dear Sir Charles,

I write to invoke your personal aid in making one final effort to persuade the Finance Department to take a more reasonable view of the position in Bangalore. The sound financial position of the Mysore Assigned Tract is well known to all here, as also is the urgent need for expansion in various directions. I have proposed among other things the following new items of expenditure under Part II-B.

S.16/C

Fresh charges of the Mysore Assigned Tract Budget estimates for 1932-33:-

From the current revenues of the Mysore Assigned Tract.

(2) dormitory for resident teachers, (3) a new science room.

Until recently, two classes were held in the Principal's bungalow as there was not enough accommodation in the school. One side of the bungalow has now had to be pulled down as it was unsafe. Classes have now to be combined. Therefore if they were congested when this application was first put up, they are worse off than ever now. One class at present contains 48 girls. Several of the class rooms which ought not to hold more than 30 girls hold nearly 40. Classes of this size are far too great a strain on young Indian women teachers, quite apart from the question of fresh air.

The Health Officer has commented adversely on the sleeping accommodation for the teachers. The only dormitory is supposed to contain four teachers, and there are 11 resident teachers to be accommodated. It is impossible for all to sleep in this one room, so some of them sleep on verandahs and in the class rooms. This I consider to be a deplorable state of affairs. It is not only a question of sleeping accommodation. The teachers day room cannot hold anything like 11 people; so that these teachers can enjoy no privacy, day or night. The teachers in a school of this type expect and deserve something a good deal better than this.

The Science room can hold 10 girls, but the subject is now compulsory for all and the classes cannot possibly get into this room. Formerly it was adequate because only few girls who wished to specialise took the subject.

The Sacred Heart School grant is to help to i
accommodation for the Boys' and Girls' Schools at
housed under very bad conditions in the Church c
boys' need is the more desperate. There are 98
370 square feet of space. This is <u>less than half</u> the m
area per boy prescribed by the Madras Educational Rules. N

case

case could be more urgent than this. The girls are nearly as badly crowded and they must be terribly hot in the hot weath But their building is a better 'shape" and the girls seem to fit in more comfortably. This part of the scheme might possibly be postponed (although it would be more economical in the end to build the two parts of the building together).

2. If it is still proposed to cut any of the above grant I must emphasize that the cuts cannot be explained away to local critics on grounds of financial stringency, as none exists here. On the contrary our revenue for the first 10 months of the current year is well in excess of our budget calculations. In this happy state of affairs it is difficult to justify locally a policy which appears to hamper a wise and necessary spending that while providing for urgent needs would help to strengthen the prosperity prevailing here. The local tax payer is well aware that economy in Bangalore gives no benefit whatever to the Government of India, the only body scoring being the Assigned Tract Administration whose share of the surplus revenues at the end of the year would be enhanced at the expense of the urgent requirements of local institutions etc.

3. I confess my own complete inability to understand the justice of the attitude of the Finance Department on this point and I would venture once more to repeat the words of the Secretary of State, viz., "The Secretary of State further enjoins that there should be no obscurity about the position that the maintenance of the public services of the Tract in an efficient condition is the first and paramount claim upon the revenues of the Tract, to which all others must be treated as entirely subordinate, and that when the new arrangement comes under the review after ten years that will be the attitude adopted."

4. If

4. If you can help us in getting this question favourably reviewed we would all be very grateful.

Yours sincerely,

o/c.

From

The Hon'ble Lieutenant Colonel R.J.C. Burke,

RESIDENT IN MYSORE.

To

The Political Secretary to the Government of India,

Foreign and Political Department.

(Camp) Mercara, the 17th March, 1932.

Sir,

I have the honour to refer to your memorandum -
S.N.31 No.F.344-A/31, dated the 26th February, 1932, and to say that the statement contained therein that "having regard to the 'Ways and Means' position of the Government of India, any economy in the Assigned Tract Revenue will give temporary relief to the Government of India", raises a new and very important question affecting the administration of the Tract and requires most careful consideration.

The financial relationship between the Assigned Tract and the Mysore Durbar is too well known to need any - - elaboration. It is necessary, however, to refer once more to the principle which is contained in letter No.1541-A., dated the 7th January 1925, from the Government of India,
S.N.135 Confl. F.211-17 which runs as follows :-

> "The Secretary of State further enjoins that there should be no obscurity about the position that the maintenance of the public services of the Tract in an efficient condition is the first and paramount claim upon the revenues of the Tract, to which all others must be treated as entirely subordinate....."

Before this pronouncement the Government of India have more

than

than once admitted that they do not desire to benefit in any way from the Revenues of the Tract. How clearly this has been expressed may be seen from the marginally noted letters*.

* Paragraph 4 of letter No.163 C., dated the 22nd November 1895, from the Government of India, Foreign Department, to the Resident in Mysore. — Page 10 of printed file 613/99

Paragraph 10 of letter No.2100-Est.B., dated the 9th July, 1912, from the Government of India in the Foreign Department to the Resident in Mysore. — Page 146 -do-

The principle -- enunciated by the Secretary of State has many times been impressed upon the Government of Mysore who for years have been asking that the Government of India should pay interest on the Assigned Tract accumulated surpluses for the mutual benefit of the Tract and the State. In order to set this matter at rest the views of the Government of India were solicited and are contained in their letter No.105-A/28, dated the 28th February, 1929, from which I quote as follows:- S.N. 271 613-99

> "The surplus balances which could be isolated at any given point of time are in fact small in amount but this is not the only consideration which enters into the matter. Interest is clearly not payable on those portions of the balances which represent 'till money' or the Assigned Tract's share of the surplus revenue: and whether there is at any time during the financial year an identifiable surplus to which the Mysore Government would be entitled ultimately depends upon the incidence of expenditure from month to month, a matter which is wholly within the discretion of the Government".

This view was communicated to His Highness' Government who replied that "if the Government of India do not permit a separate investment of the funds of the Station, they may themselves allow interest on the balances of the Station which are in deposit with them and which are utilised for their ways and means operations". In reply, this Residency informed His Highness' Government that "the balances remaining with them (the Government of India) are, practically, only 'till money' and the excesses of current revenues over current expenditure, and it is difficult to see how they can reasonably be asked to pay interest on them". S.N. 275 613-99 S.N. 277 613-99

In

In thus communicating to the Durbar the views of the Government of India, I clearly understood that the Assigned Tract surpluses were considered to be so small and consequently so difficult to pin down as identifiable at any given time during the year that no question of benefitting in the way of interest or otherwise could possibly arise.

It now appears that this principle is open to such modification as mere expediency may demand and that although it is held that neither the Tract nor His Highness' Government may derive any benefit from any interest on the accumulated surpluses, never-the-less the Government of India when their 'Ways and Means' operations so require, may, by their admission in the letter under reference, benefit directly and from this Residency's point of view, substantially. Thus although the Revenues of the Assigned Tract are primarily intended for the benefit of the Tract its interests are being subordinated to the interests of the Government of India.

Were this admission known to His Highness' Government they would undoubtedly accuse the Government of India of breach of faith, which, of course is far from being the intention of Government, and I can only surmise that the admission is made through a mis-apprehension of the peculiar conditions that exist here. The moment the Government of India withhold money from the Tract on the ground of relief to themselves they present the Durbar with a genuine grievance.

I am therefore of opinion that the only possible view to take is that, although for one reason or other, interest may not be paid on the surpluses of the Assigned Tract, any reasonable demand for their use for the benefit of the Assigned Tract cannot possibly be denied.

The

The subsidiary question in the letter under reference regarding the need for economy in the resources of the Tract on account of the new water supply, is raised without a knowledge of the facts and this is bound to happen so long as the Resident's discretion is arbitrarily controlled and his expert local knowledge allowed to carry little, if any, weight with the Finance Department.

As an instance of this I will remark that the Toddy sales in the Station have recently realised a sum of 1 lakh 14 thousand in excess of budgetry anticipations and these sales are for a period of three years. This excess would be more than sufficient to assist the new water supply, in the by no means certain eventuality of such a demand being made, without in any way disturbing the present satisfactory condition of the finances of the Tract. I am therefore quite unable to agree with this view of the Government of India. This, however, as I have said is subsidiary to the main point.

I trust the Government of India will give this matter their early and earnest consideration and relieve me of a position which I could by no means explain away to His Highness' Government.

I have the honour to be,
Sir,
Your most obedient servant,

C Tell o/c
